

Approved by the Board September 13, 2012

**PENNSYLVANIA HOUSING FINANCE AGENCY
ALLOCATION PLAN FOR YEAR 2013
LOW INCOME HOUSING TAX CREDIT PROGRAM**

PROCESSING OVERVIEW AND PROCEDURES FOR 2013

The Pennsylvania Housing Finance Agency (the "Agency") administers the Federal Low Income Housing Tax Credit Program ("Tax Credit Program") in the Commonwealth of Pennsylvania. Pursuant to federal law governing the Tax Credit Program, each year, the Agency adopts a plan (the "Allocation Plan") outlining the allocation priorities and procedures to be followed in distributing Federal Low Income Housing Tax Credits ("Tax Credits") based on the housing needs of the Commonwealth. Adoption of the Allocation Plan requires approval by the Governor after a public hearing.

For 2013, the Agency has changed the manner in which it allocates Tax Credits throughout the Commonwealth and will be awarding Tax Credits to eligible Applications based on certain preferences in Urban and Suburban/Rural locations. The Selection Criteria has been amended to reflect specific needs and market conditions which may differ based on type of property, targeted populations and housing needs.

The Agency will provide supplemental policy and guideline announcements throughout the 2013 year affecting this Allocation Plan. Please refer to the Agency's website at www.phfa.org.

SUBMISSION REQUIREMENTS

All information submitted by the applicant or requested by the Agency in the review of the Application is the sole property of the Agency and may be made public. The Agency's processing procedures, fee schedules and limitations, and current rent and income limits are set forth in the Agency's 2013 Multifamily Housing Application Package and 2013 Multifamily Housing Program Guidelines (the "2013 Guidelines"), which will be available on the Agency's website at www.phfa.org, and may be amended from time to time. It is the applicant's responsibility to be familiar and compliant with all Tax Credit Program requirements, the regulations, and the Internal Revenue Code (the "Code"), both in effect now and in the future, as applicable to any Application in this program.

For a development to be considered for a reservation of Tax Credits, the entire Application package, including all exhibits, must be received by the Agency no later than **3:00 p.m.** of the closing date of one of the submission cycles listed below (**or such other deadline as may be established by the Agency on its website**). Applications not received by the closing date of the submission cycle will not be considered. The Agency will evaluate the Applications based upon the requirements set forth herein and may request additional information from Applicants at any time during the processing of an Application in its discretion. The Agency will strive to notify applicants in Cycle 1 of the applicant's status after its March 2013 Board meeting and will strive to notify applicants in Cycle 2 of the applicant's status after its July 2013 Board meeting. Applications for additional credits will be accepted in either cycle, and awarded on a first-come, first-served basis to feasible applications until the Additional Credit Set-Aside is depleted.

<u>Submission Cycle</u>	<u>Closing Date</u>	<u>Percentage of Tax Credits to be Allocated</u>
1	November 2, 2012	50%*
2	February 15, 2013	50%

*Fifty percent (50%) of this amount will initially be set aside to fund developments located in municipalities other than Philadelphia.

The Agency has established certain preferences for 2013 resources: general occupancy, senior occupancy (ages 62 and over), properties furthering the preservation of affordable housing, applications for supportive housing, community revitalization developments, properties located in areas of opportunity, developments seeking an allocation of additional Tax Credits and Strategic Investment developments (as more fully described herein).

The entity(ies) identified as an applicant(s) in the Application must have a general partner interest in the final ownership entity of the development. The applicant(s) must be actively involved in both the development and ongoing control and management of the development as evidenced in the partnership agreement governing the ownership entity for the development. Sale, transfer or assignment of an applicant's interest in the proposed Tax Credit development is prohibited while the Application is pending. For 2013, the Agency has set a limit of four (4) Applications per Cycle (excluding Applications for Additional Credits) or no more than six (6) total per year per entity serving as a general partner. After reservation of Tax Credits, any such transfers, sales and assignments prior to placement in service and issuance of an IRS Form 8609 require prior written approval by Agency staff and may require submission of a new Application, additional processing fees and/or may result in recapture of Tax Credits by the Agency.

The Application package submitted for review must include all of the information in the order set forth in the Application Checklist. Any material deficiency in the Application or omission from the mandatory submissions set forth in the Application Checklist may result in immediate rejection. In addition, the Application must meet program eligibility requirements set forth in the Code. Applications and required exhibits may not be submitted via fax or email to the Agency. Any Application which does not contain sufficient information to be reviewed will be returned. The Agency reserves the right to reject or return any Application at any time during the Application processing period.

Any Application, once received by the Agency, may not be altered, amended or modified except as approved by staff during underwriting and program review or except for developments participating in an Agency financing program, which may undergo subsequent substitute processing and ranking by the Agency. Applications will be ranked based only upon the information contained in the Application package. Agency staff will review the development's construction costs, fees, sources of funds, operating income and expenses to determine the development's financial feasibility and long term viability. The Agency may review local and/or state analysis of impediments to fair housing prepared in connection with federal funding programs and may prioritize Applications which evidence opportunities to affirmatively further fair housing. Applications that meet all threshold requirements, need and marketability and are financially feasible and viable will then be ranked according to the Selection Criteria. Applications that do not meet threshold requirements, are financially infeasible or do not demonstrate long term viability may be returned at any time. The Agency also reserves the right, in its sole discretion, to reject any Application in the event that the costs or fees associated with the proposed development are deemed to be excessive or unreasonable. Additionally, the Agency may discontinue

processing any Application if the Agency determines in its sole discretion that the development will not be able to receive a reservation of Tax Credits due to the oversubscription of Tax Credits in any Cycle or Set-Aside.

Upon review of the Application, Agency staff may, but is under no obligation to, advise the applicant of incongruities, discrepancies or incomplete items and may allow the applicant to clarify or supplement the original submission. Such requests will be made in writing to the applicant and response will be required within the timeframe set forth therein, which will generally be no later than five business days from notification by staff. Applicants are urged to review their original Applications carefully prior to submission to the Agency. Corrections allowed during the staff review process will neither include replacement, substitution or amendment of material items used by staff in the ranking of an Application nor remedy the scoring of an Application as an incomplete submission. See the 2013 Guidelines for additional guidance and information about processing Applications.

Notwithstanding the above, Agency staff may take any actions deemed necessary by the Agency to process Applications in a manner which promotes Agency housing goals, specific market need and/or program objectives.

APPLICATION ELIGIBILITY CRITERIA

In order to be considered for a conditional reservation of Tax Credits, all applicants must submit an Application. The Agency will not accept or process requests for Tax Credits without the submission of an Application, and will only process Applications meeting all of the following eligibility criteria. Failure to meet any of these eligibility criteria may result in rejection of the Application.

1. Agency staff will review the Tax Credit Program compliance history and performance of the applicant (or any related entity or material participant) and the management agent of the proposed development. The applicant must certify that it is in compliance with all Tax Credit Program requirements for each Tax Credit development in which it has a material ownership interest. If the applicant (or any related entity) or management agent of the proposed development is currently involved in a Tax Credit development that has been reported to the Internal Revenue Service ("IRS") as being out of compliance with any Agency program requirement (including Restrictive Covenant Agreement violations) and said noncompliance has not been brought back into compliance prior to the submission of the Application, the Application may be rejected at any time prior to reservation of Tax Credits. In the alternative (or in addition, in the sole discretion of the Agency), attendance and satisfactory completion of an Agency-approved course in the compliance requirements of the Tax Credit Program may be required. The Agency in its sole discretion will determine whether a compliance issue is of a material or nonmaterial nature and whether it is of a recurring nature. Note that while any material compliance issue may result in rejection of an Application, nonmaterial noncompliance issues may result in the adjustment of points during the ranking process. The Agency may reject any Application from an applicant who fails to submit and maintain timely unit and project information on the Agency's interactive database ("PA Housing Search").
2. If the applicant (or any related entity or material participant) is involved or has been involved in an Agency funded development that is delinquent in payments to the Agency or has materially defaulted on any of its obligations to the Agency or has misrepresented any material information on a previous application, the Agency may reject the Application.
3. Applications may be returned if the applicant (or any related entity or material participant) has failed to meet any established program deadline date which resulted in loss or recapture of Tax Credits or potential loss of other financial assistance or funding resources.

4. Applicants (or any related entities or material participants) who have unpaid fees due to the Agency or with outstanding state tax liability may be ineligible to participate in the Tax Credit Program.
5. Developments that have resulted from or will result in the permanent displacement of low income residents will be ineligible for Tax Credit Program participation unless the developer provides evidence satisfactory to the Agency that an appropriate relocation plan has been developed. Furthermore, to the greatest extent feasible, all existing low income residents must be offered their choice to either be temporarily relocated until such time, upon completion of the development, as they are able to return to an appropriately sized affordable unit in the development, or receive relocation benefits. Applicants are required to document the efficacy of notice given to residents to the satisfaction of the Agency.
6. Applications for Acquisition Tax Credits will not be accepted for any existing occupied Tax Credit development during its initial compliance period unless the initial compliance period will have expired prior to the end of 2013 and the property meets all other Acquisition Tax Credit rules.
7. Applicant must provide evidence satisfactory to the Agency of its financial and organizational capacity to ensure the completion of the development in accordance with the requirements of the Code. The Agency will consider the total cost and number of projects owned or managed by the applicant in making this determination. Additionally, the Agency reserves the right to review supporting documentation, including annual audited financial statements, to evaluate the applicant's financial capacity.
8. Applications for 2013 Tax Credits must demonstrate a commitment to serve low income residents for a period of not less than 30 years or, in the alternative, offer homeownership opportunities to qualified residents after the initial 15 year compliance period. For the commitment to serve low income residents for a period of not less than 30 years, the owner will certify this commitment in the Application and the Restrictive Covenant Agreement will contain a provision waiving any right to petition the Agency to terminate the extended use term (as described in the Code). If the alternative of homeownership opportunities is selected, proposals must present a financially viable homeownership program for residents who inhabit the units during the compliance period. The program must incorporate an exit strategy, homeownership counseling and a minimum amount of funds (not less than \$1,000 per unit) set aside by the developer to assist the residents with the purchase. This amount may not be included in the project budget. The only types of units eligible for consideration are townhouse and single family attached and detached structures. The Agency, in its discretion, may approve other unit types if structured as cooperative or condominium ownership. The developer will certify this commitment in the Application and the Restrictive Covenant Agreement will contain provisions ensuring enforcement of the related covenants by affected qualified residents. Should the units not be converted to homeownership, the Restrictive Covenant Agreement will contain a provision waiving any right to petition the Agency to terminate the extended use term for all units remaining as rental units. A certification from the design architect verifying the units are townhouse or single family attached or detached structures (or otherwise appropriate for homeownership by tenants as determined by the Agency) will be required as part of the Application.
9. The development team must have sufficient experience, as determined in the sole discretion of the Agency, to effectively own, design, construct, manage and operate a Tax Credit development. The development team members include the applicant, architect, general contractor, attorney, and the management agent. As appropriate, the experience of a housing consultant (including their ability to secure equity investment) or a housing management consultant may be considered in lieu of the applicant or management agent, respectively.

In addition to the above threshold eligibility criteria, the Agency reserves the right to take any action it deems appropriate if the applicant (or any related entity), proposed management agent, or other material participant has been found to be in violation of fair housing, housing accessibility or nondiscrimination laws or has been found to discriminate against Section 8 voucher and certificate holders or recipients of any state or local tenant or project based rental assistance, and such violation or discriminatory actions have not been remedied to the satisfaction of the governmental agency or entity with jurisdiction. The Agency specifically reserves the right to take any appropriate action and to deny any future Tax Credit Application from any applicant (or related entity) who evicts or terminates the tenancy of low income residents, except for good cause, throughout the entire project compliance period (including the extended use period) applicable to any existing Tax Credit development. Such action may include rejection of the Application, termination of processing, recapture of Tax Credits (if an IRS Form 8609 has not been issued) or, if applicable, issuance of an IRS Form 8823 or notification to the appropriate governmental authorities. As evidence of such finding of violation, the Agency may rely upon its own investigations or may rely upon any order of a court with jurisdiction or upon notice of such a finding from any federal or state agency with investigative or regulatory jurisdiction regarding the subject matter, such as the Internal Revenue Service, U.S. Department of Justice, Department of Treasury, U.S. Department of Housing and Urban Development, Pennsylvania Human Relations Commission or Pennsylvania Office of Attorney General or may make a determination based upon the failure to report or affirmatively disclose information to the Agency.

“Material participant” for purpose of this section includes any entity who by written agreement may significantly affect, in the opinion of the Agency, the development or operation of the property. Such written agreement may include ground leases, operating subsidies, partnership agreements, management contracts or operating regulatory agreements.

10. Applications must demonstrate that the housing needs of local public housing waiting lists have been met. Applicants may meet this requirement by providing either: (1) a current letter from the local public housing authority stating how the development is specifically meeting the housing needs of residents on the public housing waiting list; (2) a copy of the comprehensive plan outlining the current local public housing authority waiting list and evidence that the development will meet such resident needs; or (3) evidence of receipt of mailing to the local public housing authority prior to the date of the Tax Credit Application a letter which evidences the commitment of the developer to work cooperatively to meet the needs of persons on the local public housing waiting list.

CYCLES AND SET-ASIDES

In 2013, the Agency will accept Applications for Tax Credits in two cycles. Developments located in Urban Areas (the “Urban Cycle”) will be accepted in Cycle 1. See “Exhibit Urban Areas” for complete list of the applicable municipalities. All other Applications will be considered in Cycle 2 (“Suburban/Rural Cycle”). The Agency has established preferences for certain types of developments in each cycle which include general occupancy, senior occupancy (ages 62 and over), properties furthering the preservation of affordable housing, applications for supportive housing, community revitalization developments, areas of opportunity and Strategic Investment developments (as more fully described herein). The Agency may also provide a preference to developments using Commonwealth-sponsored pilot programs or meeting specific market needs or Agency housing goals.

Preferences for certain types of housing have been established as minimum goals by the Agency in meeting certain housing needs of the Commonwealth. Developments may be considered in more than one category and will have been deemed to have met both for purposes of meeting the stated housing goals. Developments meeting more than one of these categories may be advantaged during the ranking/scoring process.

1. General Occupancy (**Cycles 1 & 2**) - The Agency will reserve Tax Credits to, at a minimum, three (3) general occupancy properties in each cycle.
2. Senior Occupancy-62+ (**Cycles 1 & 2**) - The Agency will reserve Tax Credits to, at a minimum, two (2) senior occupancy developments targeting persons 62 years of age and above in each cycle. Eligibility for this preference will require demonstration that services will be provided to residents to enable them to continue to live independently.
3. Preservation Developments (**Cycles 1 & 2**) –The Agency will reserve Tax Credits to, at a minimum, three (3) preservation properties in each cycle. Properties eligible for this preference will be limited to those developments which consist of:
 - i) existing low income units receiving project-based rental subsidies that are within two years of any permitted prepayment or subsidy contract expiration with a likely conversion to market rate housing or equivalent loss of low income use restrictions and expend a minimum of \$20,000 a unit in construction improvements. (The likelihood of conversion to market rate housing must be supported by a current market study in a form and substance acceptable to the Agency); or
 - ii) rehabilitation of already existing low income units provided the development will be monitored through an Agency preservation program; and
 - iii) the construction cost per unit does not exceed \$75,000 for work which meets or exceeds the measures outlined in the capital needs assessment (as may be modified by the Agency based on additional review).
4. Supportive Housing (**Cycles 1 & 2**) – The Agency will reserve Tax Credits to, at a minimum, two (2) developments in each cycle which promote supportive housing opportunities to targeted populations including persons who are homeless; non-homeless households that require supportive services including those with mental, physical, sensory, or developmental disabilities; persons with substance abuse disorders; persons diagnosed with HIV/AIDs and related diseases; and other special populations approved by the Agency on a case-by-case basis. Designated units must be rented only to the target population (subject to fair housing laws). The Agency reserves the right to fund only one Supportive Housing development from this preference each cycle if the development is the highest scoring application and the amount of tax credits requested exceeds \$1,200,000. Eligible developments may include those which would be eligible to participate in the HUD Section 811 Demonstration Program.
5. Innovation in Design (**Cycles 1 & 2**) - The Agency will hold a juried competition encouraging demonstrated innovation in housing which could be illustrated through excellence in design, implementation of current and future energy efficient technologies and materials and leveraging community and capital resources and will reserve Tax Credits to the winning development in each cycle. See Checklist in 2013 Guidelines for materials needed to participate in the competition. The selected development would work with the Agency to establish and employ the best practices for future development.
6. Strategic Investment (**Cycles 1 & 2**) – The Agency will reserve Tax Credits to, at a minimum, three (3) developments in each cycle which the Agency determines support specific housing economic opportunities (such as areas of extreme housing shortage due to Marcellus Shale development) or the overall housing goals of the Commonwealth, as determined by the Agency.

The Agency, in its discretion, may consider any Application for Strategic Investment. The Agency may consider developer participation, regional distribution, scale of community impact, extraordinary market and population needs, unique funding and leveraging opportunities, disaster recovery response and competitive rankings of Applications, in making Strategic Investment awards

including how the development maximizes the inclusion of affordable accessible units in its design.

7. **Community Revitalization/Mixed Income (Cycle 1 only)** –The Agency will reserve Tax Credits to, at a minimum, three (3) developments in Cycle 1 which support a broader community revitalization program which has the capability of changing fundamentally the character of a neighborhood, enhancing the lives and amenities available to residents of the community, are focused on implementing a "mixed income" strategy, and/or which seeks to counteract the pattern through which some metropolitan areas are being segregated by income or race.

The Agency will look at how, in measurable terms, the following aspects are associated with the comprehensive revitalization program of which the development is a part:

- Supports the construction and rehabilitation of housing to meet the needs of households of all income types, including the very low income
 - If the development proposes to offer rents at or close to the Tax Credit program maximum (i) the availability of housing choice vouchers to make some of its units affordable to the area's lowest income households and/or (ii) the projected existence elsewhere in the neighborhood of development(s) that can be expected to provide such affordability
 - Access to public transportation
 - Access to public parks and open space
 - Access to community serving enterprises
 - Encourages the reuse and rehabilitation of existing infrastructures
 - Coordination of proposed site amenities that enhance the overall neighborhood
 - Coordination with an overall community revitalization effort
 - Of sufficient size and scope to have a significant and lasting positive impact on the community (including increasing or stabilizing tax base)
 - Expands quality of life and fulfills a need for health care choices and other crucial service opportunities for residents of the community
 - Municipal support articulated in a publicly approved community plan or in the form of significant funding commitments
 - Presence of supporting local neighborhood initiatives
 - Consistent with the local community's plan to affirmatively further fair housing.
8. **Areas of Opportunity (Cycle 2 only)** - The Agency will reserve Tax Credits to, at a minimum, three (3) developments in Cycle 2 which expand housing opportunities and design choices in areas suitable for long-term economic growth and have an existing or planned infrastructure to support future growth in the area, in order to promote mixed-use and/or mixed-income development within a community setting. These developments will be located in areas of strong schools and employment opportunities and in communities which may have not received representative resources in the past.

Nonprofit Set-Aside

The Agency will continue to encourage development by nonprofits which have demonstrated commitment to improving the living environment, public health, or safety of local populations in Tax Credit developments and will target a minimum of twenty-five percent (25%) of the state per capita allocation amount toward developments involving qualified nonprofit organizations (the "Nonprofit Set-Aside"). To be eligible, all nonprofits must meet the following requirements:

A nonprofit organization will qualify for consideration under the Nonprofit Set-Aside if it is described in paragraphs (3) or (4) of Section 501(c) of the Code, is exempt from tax under Section 501(a) and will materially participate in the Tax Credit development throughout the compliance period. In addition, the nonprofit organization must have the fostering of low income housing as one of its exempt

purposes. The nonprofit organization must own (directly or through a partnership) at least a 51% interest in the general partner of the partnership entity in accordance with current laws and IRS regulations throughout the development's compliance period. The nonprofit organization may neither be an affiliate of, nor controlled by, a for profit organization. An opinion of counsel addressing the status of the nonprofit organization and qualification for the Nonprofit Set-Aside may be required.

Priority may be given to nonprofits which have a substantial base of operations within the county or municipality in which it proposes a development. To show a substantial base of operations, the nonprofit must demonstrate that it has provided quality charitable services to persons in the county or municipality without substantial interruption for at least the last two years, or performed other such activities which demonstrate, to the satisfaction of the Agency, that the organization will further the living environment, public health, or safety of persons in the proposed development. The Agency may require certification of IRS Form 990 filings and evidence of good standing with all nonprofit IRS filing requirements.

Requests for Additional Tax Credits Set-Aside

A Set-Aside of Tax Credits equal to five percent (5%) of the state per capita allocation will target developments that have received an initial reservation of Tax Credits in a prior year and are seeking additional Tax Credits in 2013. Applications may be submitted in either Cycle. Developments that must be placed in service in 2013 will receive preference for the Tax Credits. This Set-Aside is only available for developments which have closed on their equity investment or can demonstrate the capacity to secure an equity investment, satisfactory to the Agency, and qualified applicants must neither have changed any selection criteria nor made any unapproved modifications to the development from the initial Application. Applications will not be accepted for additional Tax Credits due solely to an increase in Maximum Basis Limits. Furthermore, in order to qualify for a reservation of Tax Credits from this Set-Aside, the applicant must demonstrate that an amount equivalent to a minimum of 15% of the developer's fee has been reinvested to cover increased costs associated with the development financing.

Applicants may only request additional Tax Credits two times subsequent to the initial reservation. Projects awarded Tax Credits in Cycle 1 may not come in for an award of additional Tax Credits in Cycle 2. Once the Additional Tax Credits Set-Aside is exhausted the Agency, in its discretion, may reallocate Tax Credits from other set asides in an amount as determined by the Agency to developments which must be placed in service in 2013. All applicants for additional Tax Credits should refer to the Checklist of Exhibits in the 2013 Guidelines for resubmission requirements and processing instructions. Applications for Additional Tax Credits will be considered by the Agency upon submission of the Additional Tax Credit Application in either funding cycle. The Agency will strive to make conditional reservations of Additional Tax Credits by February 28, 2013, for Cycle 1 applicants and July 31, 2013, for Cycle 2 applicants.

Selection of Applications

The Agency will strive to reserve Tax Credits in a manner which results in a geographic distribution statewide. Applications for Tax Credits will be evaluated and ranked based on the Selection Criteria. It is the Agency's intent to follow the preferences established in each Cycle for targeting resources and will award Tax Credits to the highest scoring Applications meeting the stated preferences. Provided Tax Credits are available in a Cycle after the Agency determines that the preferences have been met, the Agency will award Tax Credits to the next highest ranking Applications in each Cycle. The Agency recognizes that lower ranking Applications may be awarded Tax Credits in order to meet the stated preferences, however, the Agency has determined that in order to receive an award of Tax Credits, a development must meet a minimum point threshold of 80 points.

ADDITIONAL RESOURCES AND SUPPLEMENTAL INFORMATION

The amounts available in each Cycle or Set Aside may be adjusted by the Agency at any time to ensure adequate and appropriate funding of the developments meeting the Program criteria. Should additional Tax Credits become available for whatever reason at any time in 2013, the Agency will not issue an amendment to this Allocation Plan but will instead make allocations of such additional Tax Credits based upon priorities and preferences set forth in this Allocation Plan as it deems appropriate.

The amounts available in each Cycle or set aside may be adjusted by the Agency at any time to ensure adequate and appropriate funding of the developments meeting the Program criteria. Further, the Agency reserves the right to allocate more than the available Tax Credits in each Cycle or set aside in order to fully fund a project reservation which has scored sufficient points to warrant funding but for which funds remaining in the Cycle or set aside cannot fund the full credit amount needed for feasibility. For developments returning Tax Credits from a previous or current year's allocation, the Tax Credits may be redistributed at the Agency's discretion.

After the Agency reserves Tax Credits for 2013 Applications, the Agency may allocate such 2013 Tax Credits as may be available to any development which either did not receive a reservation or which needs additional credits to fully support its financial feasibility. In addition, the Agency may make binding commitments to allocate Tax Credits through a forward allocation process to ensure that it will be able to completely allocate year 2013 Tax Credits prior to the end of the year. Developers may not apply for or request a forward allocation. The Agency may determine to forward allocate based on geographic distribution, specific project needs or program considerations in the sole discretion of the Agency.

Tax Credits are not guaranteed to any party, regardless of the ranking or points achieved through the evaluation process. The Agency will review the geographic location, developers and types of projects to ensure distribution throughout the Commonwealth. In addition, the Agency may impose a \$1,200,000 per developer per cycle maximum on the Tax Credits or otherwise restrict the amount of Tax Credits to any particular developer or project. Based upon the demand for Tax Credits and development rankings, the Tax Credits reserved for any one applicant (or related entity or material participant) or development in any specific jurisdiction or within a particular Set-Aside may be limited at the discretion of the Agency. Furthermore, Applications with costs that the Agency, in its sole discretion, deems to be excessive may be rejected or suspended from processing. Moreover, the Agency reserves the right to amend, modify or waive specific nonmaterial submission requirements or requisite documentation to best achieve affordable housing programs or affirmatively further fair housing in the Commonwealth.

MAXIMUM PER UNIT BASIS LIMITATIONS

The Agency has established a maximum basis per unit limit of \$250,000 ("Maximum Basis"). The Agency may consider a waiver of these limits for developments with larger bedroom counts. Maximum Basis includes all depreciable costs normally included in the eligible basis determination for rehabilitation or new construction (not including the developer's fee or cost of acquisition). Maximum Basis for the purposes of this calculation may be determined after the deduction for commercial space costs but prior to the pro rata reduction for historic tax credits and other nonqualified financing and costs normally not included in eligible basis.

If the Maximum Basis per unit, as previously described, exceeds the established limits, Agency staff may waive the Maximum Basis per unit for some developments in its discretion. An Agency waiver of the established limits will be based upon the demonstration of compelling circumstances and justification for the additional basis eligible costs. Compelling circumstances are limited to the following: costs predominately related to the preservation of a designated historic building or necessitated by building in

or adjacent to a designated historical district; construction costs attendant to providing supportive services to the resident population that are over and above that typically associated with such housing, including reasonable costs related to the construction of community service facilities; costs due to structurally unsuitable subsoil conditions; costs associated with environmental remediation of an existing building that will remain in the development; up-front capital expenditures related to energy efficiency systems that will result in demonstrable savings in utility costs to the development, including solar, geothermal, or other innovative energy savings techniques; and costs resulting from local conditions or attempts to exclude affordable housing (this may include excessive impact fees, building code requirements, restrictive zoning, extraordinary litigation costs incurred because of neighborhood opposition and planning requirements). For those properties seeking to exceed limits based on costs due to unsuitable subsoil conditions, costs associated with environmental remediation, or up-front capital expenditures related to energy efficiency systems that will result in demonstrable savings in utility costs evidence must be provided that such costs are in excess of expenditures required for eligibility for Tax Credits. In addition, a detailed cost breakdown must be provided indicating the difference between the costs for these items and those of typically constructed developments. Developers must provide full explanation of all alternative site considerations and provide adequate justification of the need for the development at the identified location or a full explanation and adequate evidence of cost savings. For developments affected by local attempts to exclude affordable housing, Agency staff will not approve Tax Credits above 30 percent of the Maximum Basis limitation. For all other circumstances, Agency staff will not approve Tax Credits above 15 percent of the Maximum Basis limitation. A waiver of the Maximum Basis limitation is at the sole discretion of the Agency.

Developments located in a "qualified census tract" or "difficult development area", as established by HUD, may qualify for Tax Credits based on 130 percent (130%) of the eligible rehabilitation/new construction basis.

Tax Credits in an amount up to 130 percent (130%) of the eligible rehabilitation/new construction basis may also be considered where appropriate by the Agency for developments which demonstrate that they have excess development expenses and costs related to:

- Their location in areas of the Commonwealth with limited federal, state, local or financial resources; or
- Their provision of general occupancy units in "areas of opportunity", as defined by the Agency or are sited in order to affirmatively further fair housing or in areas that have not received representative resources in the past; or
- Their provision of supportive housing opportunities; or
- Community impact developments with mixed income (of at least 15 percent market rate units) or mixed use components (commercial space of at least 15 percent of the square footage of the development).

APPLICATION THRESHOLD CRITERIA

The Agency has determined that the following minimum development characteristics will be considered threshold criteria for all developments seeking Tax Credits in 2013. The Agency may waive the requirement of a specific amenity if compelling circumstances exist, or if the inclusion of such amenity adversely affects the financial feasibility of the development or if, due to the nature of the rehabilitation of the development, the inclusion of such amenity is cost prohibitive. The Agency will review the architectural documents submitted with the proposal to confirm the existence of the proposed amenities. A certification from the design architect verifying the inclusion of the amenities in the development must be submitted with the Application. Confirmation from the construction contract administration architect is required with the submission of the cost certification documents. For developments not requiring the services of an architect, the certifications may be provided by the general contractor. Amenities should be appropriate for the proposed resident population. Verification of the

availability of all amenities may be required by the Agency at any time and throughout the development's compliance period.

1. Development Amenities – The following Development Amenities must be included in the proposed development. (Please note that the applicant should seek independent tax advice as all of the costs of the following amenities may not be includible in eligible basis.)
 - On-site Community Room. The community room must be one room and should be of sufficient size to accommodate the residents and services to be provided. The community room in senior housing developments should include a kitchen or kitchenette that will be available to all residents.
 - An on-site community room will not be required for developments with 11 units or less or scattered site properties. Applications which are a continuation of a phased development (or are adjacent to an existing affordable housing property serving the same targeted population group) will be required to provide space sufficient to meet the size requirements below based on the aggregate of the number of units in all phases. (For the cost of a community room or building that is shared with the tenants of multiple phases to be included in Tax Credit eligible basis, it must qualify as a community service facility. Please consult with an accountant or attorney experienced in Section 42 issues for additional information regarding this issue.) The Agency may consider a long term agreement with an existing community facility within walking distance from the development as evidence of meeting this requirement.
 - The community room should contain at least 15 net square feet per unit for properties between 12 and 50 units. Community rooms in developments with more than 50 units should be at least 750 square feet in size. The square footage required shall be in addition to the kitchen or kitchenette, where provided.
 - Laundry Facilities. Common laundry facilities or the provision of individual washers and dryers in each unit are required. If the development contains a common laundry facility, the following requirements must be met:
 - For general occupancy developments: one washer and dryer per 12 units, with a minimum of two washers and two dryers required at each laundry facility.
 - For elderly developments: one washer and dryer per 20 units, with a minimum of two washers and two dryers required at each laundry facility.
 - A minimum of one front load washer and dryer is required for each laundry facility and will be required in accessible units containing a washer and dryer in the unit.
 - All washing machines, whether development owned or vendor owned, must be Energy Star® labeled.
 - Air Conditioning. For new construction or substantial rehabilitation developments, all common spaces must be air conditioned (except stair towers, mechanical rooms and storage rooms).
 - Preservation or moderate rehabilitation properties may be required to include air conditioning as part of the proposal if financially feasible and deemed reasonable by the Agency.
 - On-site Management Office. An on-site management office will be required for all developments except those containing 11 units or less or scattered site properties.

Applications which are a continuation of a phased development with a total of more than 11 units that do not include a management office in the current Application will be required to provide evidence of a management office in one of the prior phases.

2. Unit Amenities – The following Unit Amenities must be included in the proposed development.

- The net area of all dwelling units must fall within the limits listed below. (Net area is measured from the interior finish surface of the unit perimeter walls, and shall include all rooms, corridors, interior walls, storage areas, and mechanical spaces.) Rehabilitation developments may vary from the maximums and minimums by 10 percent. Preservation developments shall strive, but are not required, to meet this requirement. Accessible units may vary from the maximums as required to provide an accessible route and accessible clearances.

	FLATS	MULTI-FLOOR UNITS
SRO	90 to 200 sq.ft.	
EFF	400 to 600 sq.ft.	
1 BR	550 to 850 sq.ft.	650 to 950 sq.ft.
2 BR	700 to 1,100 sq.ft.	850 to 1,300 sq.ft.
3 BR	950 to 1,350 sq.ft.	1,000 to 1,550 sq.ft.
4 BR	1,100 to 1,550 sq.ft.	1,200 to 1,750 sq.ft.
5 BR	1,300 to 1,750 sq.ft.	1,400 to 2,000 sq.ft.

- Air conditioning shall be supplied to living areas and all bedrooms of each unit. Individual window units will not be considered as meeting this criterion.
 - Refrigerators, ranges and ovens will be required in all units except for developments containing SRO units provided such properties have common cooking facilities containing these appliances.
 - Window treatments in all residential units are required. Window treatments include venetian blinds, vertical blinds, or other opaque blinds. Roller shades will not be considered in this category.
3. VisitAbility – The following dwelling unit types shall meet the VisitAbility requirements: 100% of newly constructed single family homes, townhouses, and units in elevator buildings; all ground floor units in walk-up apartment buildings; and at least 25% of the units in rehabilitation developments. Properties unable to comply with this requirement due to physical constraints or building type may apply for a waiver from this threshold requirement. To meet VisitAbility design features: the building and units must have at least one zero-step entrance with a 36 inch wide door; all doorways and passages on the entry level floor should have a width of 36 inches; there should be a clear pathway to a bathroom or powder room; such bathroom or powder room should include a minimum 24 inch grab bar beside the toilet on a reinforced wall, which can also serve as a towel bar; and there should be a clear pathway to the living room and dining area of the unit. The visitable powder room or bathroom must provide maneuverability clearances in accordance with the Fair Housing Act Design Manual. (Preservation developments are exempt from this requirement but are encouraged to provide VisitAble units where feasible.)
4. Phase I Reports – A Phase I Environmental Site Assessment prepared in accordance with ASTM E 1527-05 and the PHFA requirements found in the Submission Guide for Architects, is required for all developments. The report cannot be more than 12 months old at the time the Application is submitted. An update letter provided by the original report’s environmental consultant may be provided when the original report is between 12 and 24 months old at the time the Application is

submitted. Only the executive summary of the Phase I report shall be submitted in the Application. The summary shall be accompanied by a certification from the sponsor stating that any issues raised in the environmental review have been reviewed and budgeted accordingly in the development budget. For existing buildings scheduled for rehabilitation or preservation developments, the Phase I report must also include the results from the following tests: lead in water, lead-based paint, asbestos and radon. Cost estimates for any remediation work shall be provided and included with the Phase I executive summary.

5. Energy Conservation –

- In new construction and rehabilitation developments, the overall U-value of the exterior building envelope must exceed the requirements of the 2009 International Energy Conservation Code Chapter 4 for buildings three stories or less in height, or Chapter 5 for buildings four stories or more in height, by at least 10 percent, as verified by a REScheck certificate for buildings three stories or less in height, or a COMcheck certificate for buildings four stories or more in height. Air sealing of the exterior building envelope and attic plane shall be included. Trade-offs available in the REScheck or COMcheck software for mechanical equipment will not be allowed.
- In new construction and rehabilitation developments, all appliances, mechanical equipment, windows, ceiling fans, exhaust fans and exit signs shall be Energy Star® labeled when such equipment and appliances exist. (Exceptions: programmable thermostats do not need to be provided, and windows in buildings over three stories in height may comply instead with ASHRAE Standard 189.1-2009.) In addition, 100% of the permanent room light fixtures in the dwelling units shall be equipped with compact fluorescent, LED bulbs, or high efficiency fluorescent with electronic ballasts; and 100% of the community room and common area corridor and stair lighting shall be fluorescent with electronic ballasts or shall utilize compact fluorescent or LED bulbs.

or

In preservation developments, existing refrigerators more than 10 years old shall be replaced with Energy Star® labeled type. Existing heat pumps, air conditioning condensing units, and through-wall air conditioners more than 10 years old shall be replaced with Energy Star® labeled type, when such equipment exists. Existing furnaces and boilers more than 15 years old shall be replaced with Energy Star® labeled type, when such equipment exists. (Programmable thermostats do not need to be provided.) In addition, existing community room, common area corridor and stair lighting more than 15 years old shall be replaced with fluorescent fixtures with electronic ballasts or fixtures that utilize compact fluorescent or LED bulbs. Where windows are scheduled for replacement, replacement should be made with Energy Star® qualified products, except in buildings over three stories in height, where window replacement may comply instead with ASHRAE Standard 189.1-2009.

The developer must certify that when existing equipment, appliances and products are replaced, they will be replaced with Energy Star® labeled equipment, when such equipment exists.

- New construction and rehabilitation developments up to three stories in height, and four- and five-story buildings with individual heating, cooling and water heating systems in each dwelling unit, shall meet Energy Star® Homes Version 3.0 Standards by achieving a Home Energy Rating System (HERS) index necessary to achieve an Energy Star® rating (issuance of the actual Energy Star® label is not required). Rehabilitation developments must achieve a HERS index that is no greater than 6 points above that needed for an Energy Star® rating. This shall include computing a HERS index based on a review of the drawings and

specifications prior to construction and documented to the Agency; all testing and inspections required during construction for an Energy Star® label, following RESNET sampling protocol; and HVAC design in conformance with ACCA Manuals D, J, and S. (These requirements do not apply to preservation developments.)

- New construction and rehabilitation developments four stories or more in height shall meet Energy Star® Multifamily High Rise standards (except for four- and five-story buildings with individual heating, cooling and water heating systems in each dwelling unit). This shall include all reviews, inspections, and testing necessary for an Energy Star label, although issuance of the Energy Star® label is not required. The sampling protocol shall be as approved by Energy Star®. (These requirements do not apply to preservation developments.)
- All developments must meet the Threshold Green Building Criteria set forth in the 2013 Guidelines.

Please review the Multifamily Housing Application and Guidelines for specific energy conservation requirements.

6. Affordability of Units - Developments must provide a financing plan which evidences that at least ten percent (10%) of the units in Urban Areas and five percent (5%) of the units in Suburban/Rural Areas are affordable to persons at or below twenty percent (20%) of the area median income, adjusted for family size. At least half of these units must be accessible. (Existing affordable developments with a demonstrated average occupancy rate of 90 percent or above over last 5 years may be exempt from having to meet the twenty percent (20%) area median income requirement for these units.) The development must evidence a viable plan to charge rents at levels affordable to persons at or below twenty percent (20%) of area median income for these units throughout the compliance period. In the event the plan includes utilization of Project Based Section 8 and appropriation for such assistance is not renewed (provided that non-renewal is not due to the development's default on program obligations), the twenty percent (20%) area median income requirement may be waived with the consent of the Agency. An agreement shall be in place with appropriate referring entities (including those supported through programs of the Commonwealth's Department of Public Welfare) to assure that sufficient referrals for tenancy are received from households who are income-eligible and/or in need of the accessibility features. Additionally, in the event the Agency is the recipient of an award of project-based subsidy from HUD of Section 811 Demonstration Program funds, the development may be required to comply with certain applicable program restrictions. The Restrictive Covenant Agreement will require that the extremely low rents are maintained and that a corresponding number of units are marketed to and set aside for such extremely low income households throughout the compliance period.

APPLICATION SELECTION CRITERIA

General Processing Information

Upon receipt of the Application, the Agency will review the site and market information contained in the Application and will conduct a development site visit if the Agency deems the development to be financial feasibility based on the information submitted in the Application. For 2013, the Agency anticipates that the number of Applications will significantly exceed the amount of Tax Credits availability for allocation, therefore, the Agency may use amount of resources available as a factor in making these determinations.

The Agency will review the Application and assign points based on the Selection Criteria. Applications will be underwritten by the Agency at the adjusted gross pay-in provided by the developer

in the Application but the Agency may adjust the pay-in during underwriting based upon market conditions, the targeted resident population or investor information. A development must address a substantial number in each of the six categories of Selection Criteria in order to qualify for a reservation of Tax Credits. The Agency has established a minimum point threshold of eighty (80) points for Applications during the Year 2013 Tax Credit Program. The Agency reserves the right, at any time, to require submission of such documentation or additional support as it deems necessary to evidence any of the items set forth herein including, without limitation, additional independent market studies, independent appraisals, evidence of property location and accurate deed and title information, independent capital needs assessments and opinions of qualified tax counsel or certified public accountants and will impose additional documentation or clarifying information as further set forth herein and in the 2013 Guidelines.

All Tax Credit reservations are made based upon the information contained in the Application. Unless specifically directed or approved by the Agency, changes or supplements to an Application during the processing period for ranking are not permitted. Changes to a development made by the applicant after a reservation is received affecting any of the Selection Criteria features will result in reconsideration of the ranking and may lead to a "rescission" of the conditional reservation. As a reminder, certain Selection Criteria will be incorporated into the Restrictive Covenant Agreement and monitored during the compliance period. Changes in any of the Selection Criteria subsequent to issuance of an IRS Form 8609 may result in noncompliance, may lead to specific enforcement action against the development and may result in the loss of Tax Credits to the development and its investors.

The scoring and ranking of an Application does not guarantee funding by the Agency. In the event the Agency departs from the ranking and scoring criteria, it shall document such departure in accordance with the Code.

The Selection Criteria are set forth in Exhibit SC2013.

RANKING OF DEVELOPMENTS

Applications will be evaluated to determine the amount of Tax Credits required to make the Application economically feasible and to ensure the Application's long term viability. If two or more developments have the same ranking within a Cycle or the statewide pool and only one Applications can be awarded Tax Credits, the Agency will select the Applications that has a higher percentage of units available to residents whose incomes are at or below 50 percent of area median gross income as compared to total number of Tax Credit eligible units. If the Applications have the same percentage of units serving residents at or below 50 percent of area median income, the Agency, in its sole discretion, may select the Application that it determines best fits the Agency's affordable housing priorities and achieves geographic distribution. In any instance, the Agency may favor selection of an Application which best evidences an ability to proceed.

The Agency's determination as to the amount of Tax Credits reserved for or allocated to a Application shall not be construed by the developer, lender, or any other interested party to be a warranty of the Application's feasibility and viability, nor shall such determination constitute a representation of compliance with any requirements of the Code.

DEVELOPER'S FEE

The developer's fee, which is meant to compensate the developer for staff time, effort and work involved in the development of the property, includes developer's expenses, overhead, profit and consulting fees or other fees and costs that are above the maximums allowed by the Agency. For developments that have 25 or more units, the developer's fee is limited to 15 percent of the first \$10

million of replacement cost of the development less all costs of acquisition and 10 percent on every \$1 of replacement cost thereafter. For developments of 24 units or less, the developer's fee is limited to 20 percent of the replacement cost of the development less all costs of acquisition. The developer's fee to be earned on applications from existing Tax Credit properties with the same or a related party or affiliated entity as the general partner on the original application will be limited to 10 percent of replacement cost less all costs of acquisition. Additional developer's fee will not be available for applications requesting Additional Tax Credits.

For rehabilitation and preservation developments that qualify for Acquisition Tax Credits, a developer's fee will be allowed on a portion of the acquisition cost that is basis eligible. The fee is limited to 10 percent of the purchase price of the property less the cost of the land. The maximum acquisition cost that will be recognized in determining the developer's fee will be the lesser of the actual amount paid for the building or the MAI appraised value. The Agency will limit the acquisition developer's fee to 5 percent if the seller and buyer are related parties.

In addition, the Agency may impose a developer's fee cap of \$1,500,000 per development on the total developer's fee allowable for costs associated with both the rehabilitation and acquisition of the development.

The developer's fee may not be calculated on a basis that exceeds the Agency's maximum per unit basis limitation. However, Agency staff may consider a higher developer's fee (up to the maximum allowable replacement percentage limits provided herein) if an amount of funds equal to the increased developer's fee calculated in excess of the Agency's maximum per unit basis limitation is committed by the owner to the provision of social supportive services, as support for lower income families in transition or in concert with a families moving to work initiative of the Commonwealth, or as an internal rental subsidy to subsidize the affordability threshold criterion at or below 20 percent of area median gross rent for the initial 15 year compliance period. Evidence of these commitments must be provided with the Tax Credit Application.

Applicants may request a developer's fee in excess of the maximum allowable amount up to but not exceeding an additional 5 percent (exclusive of developer's fees based on acquisition costs) if the applicant commits to provide to the development the entire amount of the equity raised for the additional developer's fee to fund an internal rent subsidy for all threshold required units set aside to provide affordable accessible housing to persons with disabilities for the initial 15 year compliance period. (The Agency reserves the right to determine the exact mechanism necessary and appropriate to ensure funding of the internal rent subsidy based on specific tax issues and ownership structure.) A unit would be considered affordable in this instance if the housing expense to the resident is maintained at a level affordable to a person with income at or below 20 percent of the area median income. Applicants may also request an increase in developer's fee in an amount not to exceed an additional 5 percent (exclusive of developer's fees based on acquisition costs) if the applicant commits to provide to the development the entire amount of the equity raised from the additional developer fee to fund an internal rent subsidy for units set aside to subsidize rents to persons with income at or below 40 percent of the area median income for the initial 15 year compliance period. The Agency will determine the number of units which may be subsidized at the 40 percent level. For developments not receiving Agency financing, Agency staff will only approve an increased developer's fee if the applicant provides adequate assurances and documentation (including evidence of a third party escrow arrangement) that an amount of funds equal to the increased equity raised from the additional developer's fee will be committed to the development to establish an internal rent subsidy for at least the initial 15 year occupancy period. In order to qualify for the additional developer fee, the applicant must provide evidence satisfactory to the Agency that an equity investor has been secured. If an investor has not been secured, the applicant will need to fund the reserves with other resources. In the event the Agency allows a developer's fee which exceeds the maximum per unit limitation up to the replacement cost, the Agency will not consider the additional 5

percent increases. Whenever an increased developer's fee is allowed, the partnership or operating agreement must provide that the approved developer's fee will, in fact, be paid to the developer from available funds (which may include development sources, operating revenue and additional capital contributions). Additionally, provision of funds for supportive services or to fund various internal rent subsidies will be incorporated in the Restrictive Covenant Agreement.

Development consultant's fees and organizational costs are required to be paid from the developer's fee. These fees may not be listed and shall not be recognized as separate line items on the Application.

TAX EXEMPT FINANCED DEVELOPMENTS

All tax exempt financed developments utilizing Tax Credits in their financing plan must submit a Tax Credit Application and must be evaluated in accordance with the 2013 Tax Credit Allocation Plan and the 2013 Guidelines. Developments receiving tax exempt financing for at least 50 percent of the aggregate basis of the property including land are not required to receive an allocation of Tax Credits through competitive allocation from the Agency. The eligible basis of the development would qualify for the Tax Credits without competing through the regular allocation process, however, the Agency may require that the Application meet the threshold criteria and minimum threshold points under the Selection Criteria. Developments receiving tax exempt financing on less than 50 percent of the aggregate basis will be eligible for Tax Credits on only that portion of the eligible basis financed by the tax exempt bonds. For the remaining portion, the owner must apply and compete for an allocation of Tax Credits from the Agency in the established allocation process, but the Agency may establish a lower threshold for qualified applicants.

Only that amount of Tax Credits that is necessary to ensure feasibility and long term viability will be issued on the IRS Form 8609. See the 2013 Guidelines for the appropriate documentation to be submitted and the applicable timeframes.

Because of the competitive nature of Tax Credits, the Agency may require certain applicants to pursue Tax Exempt financing as an alternative to seeking 9% Tax Credits. Specifically, developments which have access to federal resources will be required to provide information regarding the financial feasibility with tax exempt financing. Additionally, for developments seeking Tax Exempt financing, the Agency may waive such timelines, processing and program requirements, in its discretion, to encourage and facilitate such financings. The Agency may also allow costs per unit above Maximum Basis limits and may allow higher developer's fees for developments using this funding source.

SUBSIDY LAYERING REVIEWS

Pursuant to Section 911 of the Housing Community Development Act of 1992, HUD published administrative guidelines concerning subsidy layering review of Tax Credit developments receiving assistance from the HUD's Office of Housing. The guidelines provide for the delegation of subsidy layering reviews for certain programs to Tax Credit allocating agencies. Pennsylvania requested and has been delegated this subsidy layering review responsibility. Section 911 guidelines provide the Tax Credit allocating agencies with standards for evaluating builder's profit, developer's fee, syndicator expenses, and net syndicator proceeds. The guidelines include both a safe harbor standard and ceiling standard for each category. The Tax Credit allocating agency may simply use the safe harbor standards or through the Allocation Plan may raise the safe harbor standards to the published maximum ceiling standards. The Agency has elected to raise the safe harbor guidelines to the maximum ceiling standards established for the Section 911 layering review since the ceiling standards are within the fee and cost limitations already established for the Tax Credit Program.

The Agency has also been approved to conduct subsidy layering reviews for applications with proposed Section 8 Project-Based Voucher Housing Assistance Payments Contracts, and will conduct

these reviews in accordance with the Administrative Guidelines published in the July 9, 2010, Federal Register.

Beginning in 2012, the Agency entered into a tri-party Memorandum of Understanding with HUD and the USDA – Rural Development wherein the Agency conducts subsidy layering reviews for applications with Section 515 program assistance or other federal assistance subject to federal subsidy layering review requirements.

PLACED-IN-SERVICE/CARRYOVER ALLOCATION

All developments receiving a conditional reservation of Year 2013 Tax Credits must either be placed in service by December 31, 2013 or, by October 12, 2013, be eligible for a carryover allocation of Tax Credits pursuant to Section 42 (h)(1)(E) of the Code. All processing deadlines for Carryover Allocations must be met.

To qualify for a Carryover Allocation, an owner must, by the required date, have evidence of ownership of the land or the depreciable real property that is part of the proposed development. The Agency may, in its sole discretion, accept either an Attorney's Opinion Letter or a Certified Public Accountant Letter that certifies that the owner has carryover allocation basis for the development pursuant to the Code; or an owner's certification which includes sufficient identification of the property (i.e. legal descriptions, surveys, title insurance) to assign building identification numbers. In making this certification, the owner accepts full responsibility for all discrepancies, errors or omissions of properties and acknowledges that subsequent adjustments may require Internal Revenue Service approval. Additionally, no later than October 12, 2014, owner must incur more than 10 percent of the "reasonably expected basis" in the property, including land. The "reasonably expected basis" is that basis which is expected to be incurred as of the close of the second calendar year following the calendar year of the Carryover Allocation. See the 2013 Guidelines for further details and additional processing deadlines.

PROCESSING PROCEDURES

Developments receiving a conditional reservation of Tax Credits in 2013 are subject to the 2013 Guidelines and in the event the initial reservation is modified or amended, the 2013 Guidelines shall remain in force and effect for the property. However, the Agency may amend the 2013 Guidelines from time to time to further comply with Tax Credit Program requirements or to enable Agency staff to better fulfill its administrative duties and such changes would be applicable to the development.

The Agency reserves the right, in its sole discretion upon review and approval of a committee of the Board, to provide an allocation of Year 2013 Tax Credits to a development, without requiring re-ranking under the Year 2013 Allocation Plan. The development must be currently holding a valid allocation of Tax Credits and, due to circumstances beyond its control, be unable to meet Tax Credit program placed in service deadlines. The Year 2013 Tax Credits will be allocated upon release and return of the prior allocation. Such circumstances may include delays caused by local government's opposition to affordable housing; delays due to the failure of the federal government to release funding program guidelines or regulations in a timely manner or due to temporary freezes in federal government budget authority for program activity; or similar extraordinary and compelling basis (and but for such circumstance, Agency program deadlines and requirements would have been met). Notwithstanding the above, developments which need additional Tax Credits to be viable for their equity closing must submit a new Application for funding with the Agency. Said developments will not be considered for substitution of Tax Credits if their Application has substantially changed. Further, the Agency may not, in its sole discretion, consider any other Applications for Tax Credits for a new development submitted by the same applicant (or related entity or material participant) during the same or subsequent funding round for Tax Credits if it provides this extraordinary relief due to the Developer's inability to meet placed in service deadlines.

DEVELOPMENTS WITH MULTIPLE BUILDINGS

A development may include multiple buildings if it has similarly constructed units, is located on the same or contiguous tracts of land, is owned by the same federal taxpayer and is financed pursuant to a common plan of financing. A development with multiple buildings that is proposing a mixed income structure must have low-income units in each building of the development. Scattered site buildings on noncontiguous tracts of land may also qualify if the development meets all of the other requirements described above and the development is 100 percent rent and income restricted, however, costs associated with the development of a separate community building may not be eligible for Tax Credits unless the building contains a residential rental unit.

COMPLIANCE

Owners are responsible for ongoing compliance with all requirements of the Code and the Agency's Compliance Program Manual, including such rules, regulations, administrative revenue proclamations and revenue rulings as may be issued from time to time.

Each owner of a Tax Credit development must execute an agreement setting forth allowable occupancy and use restrictions, owner responsibilities and continuing Section 42 qualified development characteristics. This agreement, the "Restrictive Covenant Agreement," must be recorded for the maximum period required by the Code and no Tax Credits may be claimed by a property owner in any taxable year unless the Restrictive Covenant Agreement is in effect and is appropriately recorded on the property in the county land records.

The Agency will monitor each Tax Credit development for compliance with the Code. Such requirements may change from time to time and the protocol for compliance monitoring may be adjusted as deemed necessary or appropriate by the Agency. In addition to monitoring for all federal requirements, developments will be monitored for compliance with the occupancy standards, Selection Criteria and other covenants set forth in the Restrictive Covenant Agreement. A form authorizing the release of compliance information is on the Agency's website, www.phfa.org. However, the Agency may release related information even if no release form is submitted.

The Agency has established an interactive database ("PA Housing Search") for all affordable housing units in developments participating in any of the Agency's multifamily housing programs, to provide a resource for households seeking affordable housing throughout the Commonwealth and to provide a marketing tool to owners. All developments receiving 2013 Tax Credits must participate in this data collection effort and will be expected to provide information including, but not limited to unit amenities, household size, household income and move-in information and any ongoing unit vacancies in a secure and timely manner. Owners are reminded that they must comply with the Agency's Accessible Unit Policy (see 2013 Guidelines).

All owners must keep the following records for each qualified low income building in the development for each year of the compliance period: number of residential units in the building, the number of low income units in building, the number of occupants in each low income unit, the number of bedrooms in each unit, the square footage of each unit, the rent charged on each unit including the utility allowance, the low income unit vacancies in the building and the rentals of the next available unit for each building in the development including when and to whom it was rented. The owner must also keep documentation of the eligible basis and the qualified basis of the building as of the end of the first year of the Tax Credit period. Owners must also keep a record of the annual income certification of low income residents along with documentation to support the certification. (Effective January 1, 2009, Owners with 100% of the units qualified as Tax Credit units do not have to provide annual income certifications but must provide updates on household composition, student status and rent on the Agency's on-line

compliance reporting system. In addition, subsequent data collection efforts may be applicable to the Development and each Owner must agree in advance to participate in these data collection initiatives.) Owners renting to holders of Section 8 certificates or vouchers may ask the public housing authority issuing the certificates or vouchers to provide a statement declaring that the resident's income does not exceed the applicable income limit under the Code. Any nonresidential portion of a building included in the eligible basis of the building must demonstrate its availability to all residents in the building at no additional cost to the residents.

Records for the first year of the Tax Credit period must be retained for at least 6 years beyond the due date (with extensions) for filing the federal income tax return for the last year of the compliance period of the building. In all subsequent years of the Tax Credit period, records must be kept by property owners for a minimum of 6 years after the due date (with extensions) for filing the federal income tax return for the year.

The Agency will also review and monitor developments for compliance with required certification submissions. Owners must provide certification at least annually to the Agency, under penalty of perjury, through the Agency's on-line compliance reporting system, as to the following: the development meets the requirements of the elected minimum set-aside test; the applicable fraction, as defined in Section 42(c)(1)(B) of the Code, of each building in the development has not changed, or, if there was a change, a description of the change; owner has received the annual income certification from each low income resident along with supporting documentation; the low income unit is rent restricted under Section 42(g)(2) of the Code; all units are available to the general public and used on a non-transient basis and no finding of discrimination under the Fair Housing Act has occurred for the development; each building is suitable for occupancy pursuant to local health, safety and building codes and meets all habitability standards for the Tax Credit Program; the building's eligible basis pursuant to Section 42(d) of the Code has remained the same (or if there was a change, the nature of the change); and any resident facility in the building is available to all residents in the building on a comparable basis without a separate fee charged to the resident. Furthermore, owners must certify that no low-income resident of a Tax Credit property will be or has been evicted or otherwise had their lease terminated other than for good cause and owner must confirm that all leases state this affirmatively. Experience as of victim of domestic violence alone may not constitute good cause for eviction under the terms of the lease. Owner must also certify that if a low income unit becomes vacant, reasonable attempts will be made to rent that unit to a qualified low income resident, and while that unit is vacant no units of comparable or smaller size may be rented to a non-qualified low income resident. If a low income resident's income rises above the limit established in Section 42(g)(2)(D)(ii) of the Code, all available units of comparable or smaller size in that building must be rented to an income qualified resident. Owner must also certify that an extended low income housing commitment, as described in Section 42(h)(6) of the Code, was in effect for all qualified low income buildings in the development. Owner must also certify that a unit lease has not been refused to a Section 8 applicant because the applicant holds a Section 8 voucher or certificate. Owner's certifications of these items must be submitted at least annually or with such greater frequency as may be required by the Agency. The Agency may adjust any and all of its compliance protocols as it deems appropriate throughout the compliance period and the extended use term covered by the Restrictive Covenant Agreement.

The Agency may review the information set forth on the certifications at any time for compliance with the Code. On-site inspections of all Tax Credit developments will be held from time to time, at the sole discretion of the Agency, for compliance with the certification requirements, habitability standards, rent records, lease provisions, supporting documentation and all record keeping requirements in the low income units. Physical inspections of all buildings and at least 20% of all low income units are performed at least once every three years. The Agency will determine which developments and which records it will inspect and how often such inspections will be conducted in its discretion. The Agency retains the right to perform on-site inspections at any time during the compliance period for any Tax

Credit development or to conduct more frequent or more detailed site visits if the Agency deems it appropriate. As referenced above, the Agency may also require submission of ongoing data from each property regarding move-ins and vacant units.

Audited financial statements must be submitted annually to the Agency's Compliance Monitoring Department for all properties with twenty (20) or more units. If audited financial statements are not available, a compilation must be prepared and submitted to the Agency's Compliance Monitoring Department. (Applications for Tax Credits in any year may be rejected from organizations or individuals who have not submitted to the Agency the audited financial statements for a Tax Credit development for the preceding tax year.)

As required by the IRS, in the event the owner or the development does not comply with any of the provisions of the Code, the Agency will provide written notice to the owner that specifies a correction period that may not exceed 90 days, unless extended by the Agency in writing. Upon the expiration of the correction period set forth in the written notice to the owner, the Agency must file IRS Form 8823 "Low Income Housing Credit Agency Report of Noncompliance" ("IRS Form 8823") with the IRS to advise the IRS of the existence of an event of noncompliance with an explanation of the nature of the event and whether the owner has corrected the noncompliance. Any change in either the applicable fraction or eligible basis resulting in a decrease in the qualified basis will be treated as an event of noncompliance. In addition, any failure to provide required information to the Agency on a timely basis in accordance with its written request or the procedures established in Agency directives or set forth in its Compliance Program Manual may be treated as an event of noncompliance and may result in the filing of IRS Form 8823. Failure to continually meet the requirements of the use, occupancy and other conditions relevant to the operation of the development, as set forth in the Restrictive Covenant Agreement, may be treated as an event of noncompliance and may result in the filing of IRS Form 8823.

The Agency will assess owners an upfront compliance fee designed to cover administrative expenses associated with the performance of compliance monitoring. Additional fees may be charged, as necessary and appropriate, for any property.

The Housing and Economic Recovery Act (HERA) of 2008 requires each state Credit allocating agency to provide HUD with information on the race, ethnicity, family composition, age, income, use of federal rental assistance, disability status, and monthly rental payments of households residing in each property receiving Housing Credits. All developments receiving Tax Credits must participate in this data collection effort and will be expected to provide the required information in the form, manner and timeframe required by the Agency.

Exhibit Urban

The following urban areas qualify for application submission in Cycle 1 of the 2013 Program Year.

Allegheny County

City of Pittsburgh

Berks County

City of Reading

Blair County

City of Altoona

Cambria County

City of Johnstown

Dauphin County

City of Harrisburg

Delaware County

City of Chester

Erie County

City of Erie

Lackawanna County

City of Scranton

Lancaster County

City of Lancaster

Lawrence County

City of New Castle

Lebanon County

City of Lebanon

Lehigh County

City of Allentown

Luzerne County

Selection Criteria

A. Community and Economic Impact

20 points

It is the goal of the Agency to encourage affordable housing in areas with job opportunities; in areas near strong and stable communities and in areas which demonstrate the capacity for community revitalization opportunities. The Market Study /Needs Assessment must identify the criteria set forth in the Community and Economic Impact Selection Criteria for ranking consideration in this category. To that end, up to 20 points will be awarded to developments located in areas that demonstrate the following relative to the immediate market area:

1. Underserved Areas

a. Areas of Opportunity –

- Low poverty rates
- Limited affordable housing options, both subsidized and non-subsidized
- Limited affordable housing production in past 20 years
- Close proximity to employment
- Strong housing markets
- High owner-occupied markets

b. Senior Occupancy Developments –

- Large number of seniors eligible for affordable housing
- Limited affordable housing options, both subsidized and non-subsidized
- Limited affordable housing production in past 20 years
- Close proximity to amenities for the senior population, including health and retail establishments, home health agencies, and hospitals.

AND/OR

- #### 2. Community Revitalization Plans – A critical circumstance is the development's forming an important part of a broader or comprehensive program of neighborhood improvement which has the capability of changing fundamentally the character of that neighborhood or enhancing the lives and amenities available to residents of the community. Such improvement should include the provision of mixed income housing. A program of neighborhood improvement includes municipal support articulated in a publicly approved community plan or in the form of significant funding commitments, or evidence of substantial major investment in the area that is consistent with an existing comprehensive plan for neighborhood improvement which includes contributing to a transit oriented design initiative. Such funding commitments or major investments cannot be derived solely from the development of Tax Credit properties and may include proposals participating in: Main Street, Elm Street, Neighborhood Partnership or other programs of the Commonwealth, the Agency's Homeownership Choice Programs; New Markets Tax Credits, the Healthy Village Initiative of the Local Initiatives Support Corporation; the Blueprint Communities Initiative of the Federal Home Loan Bank or similar community support programs. Additionally, the plan should generally include municipal support, private investment and/or private sector commitments to the area. The Agency will consider in its evaluation of community impact the use of existing housing or buildings if the development is not located in a qualified census tract. Up to 20 points will be awarded this category.

B. Development Characteristics

20 points

Energy Conservation – The Agency may award up to 20 points maximum for the provision of each of the following development amenities.

- Smart Site Selection – 5 points each may be awarded to those developments located on a brownfield, residential infill or adaptive reuse site.
- Renewable Energy Systems – 5 points each may be awarded to those developments which incorporate renewable energy systems, such as solar thermal, solar photo voltaic, wind or geothermal in its design.
- Green Building – 5 points each may be awarded to those developments which use recycled materials, certified/salvaged/engineered wood products or perform construction waste management in the construction of the development.

Please review the 2013 Guidelines for specific requirements.

The Agency will review the architectural documents submitted with the proposal to confirm the existence of the proposed amenities. A certification from the design architect verifying the inclusion of the amenities in the development must be submitted with the Application. Confirmation from the construction contract administration architect is required with the submission of the cost certification documents. Amenities should be appropriate for the proposed resident population. The appropriateness and adequacy of the proposed amenities for ranking purposes will be determined at the sole discretion of the Agency. Verification of the availability of all amenities may be required by the Agency at any time and throughout the development's compliance period.

C. Resident Population and Services

50 points

1. Income and Rent Targeting – The Applicants may be awarded up to 20 points for developments that are designed to be substantially occupied by and affordable to residents with incomes that are at or below 50 percent of the area median income. Points will be considered for the following percentages of units affordable to and occupied by residents whose incomes are at or below 50 percent of area median income:

<u>Percentage</u>	<u>Points</u>
>10-20%	4
>20-30%	8
>30-40%	12
>40-50%	16
>50%	20

2. Designated Populations & Supportive Services – To receive points in this category, the development will provide evidence that appropriate services will be provided for the entire resident population for the duration of the compliance period. Evidence consists of a supportive services plan that:

- Is specific to the development and effectively addresses the anticipated service needs of the target resident population.

General occupancy developments should deliver or coordinate services that: improve building and unit maintenance; stabilize occupancy by improving residents' ability to uphold

their lease obligations; and enhance quality of life through increased self-sufficiency and programs that improve life skills, employment, education, income/asset building, child and youth development, community building, and access to services.

Senior occupancy developments should deliver or coordinate services that: stabilize occupancy by improving residents' ability to uphold their lease obligations throughout the aging process and enhance quality of life through improved access to services and benefits, health promotion, community building, and socialization.

Developments for populations with special needs should deliver or coordinate services that stabilize occupancy by improving residents' ability to uphold their lease obligations and enhance quality of life through improved access to services that support the needs of the targeted population.

- Includes sufficient funds to implement the described plan of services. It is recommended that this funding be set aside in a supportive services escrow account, but if including in the development's annual operating budget, collaboration with a community-based service provider (include letter of intent or Memorandum of Understanding) or funds from other identified sources may be used. If currently committed funds fall short of the cost of services for at least the first fifteen year period, identify how services will be funded for the remainder of the compliance period.
- Utilizes a service provider/coordinator with the capacity to implement described plan of services. The recommended minimum is one hour of on-site dedicated staffing per week for every five units. Services staff should have access to a computer with Internet and email capabilities. There should be sufficient space to carry out the described services, including adequate office and community space.

Satisfactory completion of the above three factors are the minimum requirements for 5 points. Demonstrated commitment of sufficient funds for at least 15 years and meeting or exceeding the recommended minimum on-site staffing may result in an additional 5 points.

Confirmation from the service provider regarding the availability of applicable services at initial occupancy of the development will be required prior to issuing the IRS Form 8609. To ensure the continued provision of supportive services, the Restrictive Covenant Agreement will reflect such commitment.

3. Accessible Units –

Consideration may be given to developments where the developer agrees to provide twice as many fully accessible units as are otherwise required (under local, state, or federal mandate, whichever is greater) in the development. All employee units and market rate units must be included in the total unit count when calculating the required number of accessible units. The developer must certify that these units are accessible and that, during initial lease up, the developer will exclusively reserve the units for occupancy by persons needing the accessible units for the first thirty days. Thereafter, the developer will include certain provisions in the lease to allow the units to be occupied by persons who need the accessible features of the units, to the greatest extent feasible. Evidence of enforcement of the lease provisions will be required and implementation and adherence to additional outreach programs to identify and match qualified residents who need the accessible features within the development may be required throughout the compliance period which may include contacting the Agency prior to renting the unit to persons who do not require the accessible features in accordance with the Agency's Accessible Unit Policy.

Terms addressing the accessible units and the subsequent rental of these units will be incorporated in the Restrictive Covenant Agreement. In addition, a certification from the design architect verifying the inclusion of the accessible units in the development will be required at the time of application. Confirmation from the construction contract administration architect will be required with the submission of the cost certification documents. For preservation developments,

consideration will be given for points under this category if the development increases the number of fully accessible units which meet current standards in the development by at least 5 percent of the total units available. If an existing development already has twice the federal minimum number of accessible units that meet current accessibility standards, they will be eligible to receive points in this category. (All other requirements applicable to rental and long term occupancy of these units are the same.) (10 points)

- 4 Large Families – Up to 10 points may be awarded for those developments providing units with three or more bedrooms for large families. High rise developments and senior housing cannot qualify for this category. Points will be considered for developments that include the following percentages of units with three or more bedrooms:

<u>Urban</u>		<u>Suburban/Rural</u>	
<u>Percentage</u>	<u>Points</u>	<u>Percentage</u>	<u>Points</u>
>15-20%	6	>10-15%	6
>20-25%	8	>15-20%	8
>25%	10	>20%	10

A certification from the design architect verifying the number of large family units in the development will be required at the time of application. Confirmation from the construction contract administration architect will be required with the submission of the cost certification documents. For developments not requiring the services of an architect, the certifications may be provided by the general contractor.

D. Development Process

25 points

1. Noncompliance – The Agency may deduct up to 10 points from the score for proposals involving either an applicant (or any related entity) that owns a managing or controlling interest in a Pennsylvania Tax Credit development or a management agent of such development who has unresolved IRS Form 8823 noncompliance issues, has not met the requirements of the Restrictive Covenant Agreement or failed to meet the selection criteria for which an allocation of Tax Credits was made.
2. Ability to Proceed – Points will be awarded for zoning, committed funding sources and equity investment. As the Agency strives to make resources available to those projects which can quickly and effectively utilize its resources, consideration will be given to those properties which can demonstrate the ability to proceed. A total amount of 25 points may be awarded in this category.
 - Zoning (5 points) – The developer must demonstrate that zoning is in place for all sites included in the Application which may include evidence that variances/special exceptions have been approved or a letter from the local planning commission that supports any required variance/special exceptions.
 - Equity Investment (10 points) – The developer must submit evidence, satisfactory to the Agency that an equity investor has been secured for the development. Consideration in this category will be given if such evidence demonstrates, satisfactory to the Agency that a direct investor has been secured for the investment or if the syndicator’s letter shows that the funds have been committed to the project.
 - Commitment of Funds (Up to 10 points) – The developer must provide evidence, satisfactory to the Agency, that all funding commitments from public and private lenders have been secured. A minimum level of funding as determined by the Agency based upon availability

in both Participating Jurisdictions and Non-Participating Jurisdictions will be required for consideration in this category. Evidence of said commitments shall include a firm commitment of funding and shall set forth the terms and conditions of said funding.

E. Development Cost Savings

10 points

The Agency may award up to 10 points to Applications which demonstrate costs less than the median total replacement costs of the total applications submitted in a cycle. In each cycle the Agency will determine the median total development cost per square foot (less the cost of acquisition) and will award points based on certain ranges as stated below. Preservation Applications and those located in Philadelphia will not be included when determining the median costs in a cycle. The Agency will award points to Preservation and Philadelphia Applications as they compare against each other. In addition to submission of certifications that the building as designed and as constructed will meet/meets all labor and material standards set forth in applicable local or statewide codes (without sacrificing unit size and other building amenities), the Agency reserves the right to require additional certifications from local officials or building design professionals prior to the issuance of an IRS Form 8609 for the building or to conduct its own site visits during construction to ensure that the quality of construction is not compromised by cost savings.

<u>Percentage Below Median Replacement Cost:</u>	<u>Points</u>
At least 5%	5
>8%	10

G. Other

5 points

Complete and Accurate Application Package – Up to 5 points will be added to the total score of an Application for completeness and for including all essential components necessary for the Agency to determine financial feasibility and project eligibility.

Total Points Available

130 points
